Experience

UI/UX designer

Leometric Technology

Oct 2022 - Present

- Design and create intuitive, user-friendly, and visually appealing interfaces for web and mobile applications.
- Collaborate with cross-functional teams, including product managers, developers, and stakeholders, to understand project requirements and user needs.
- Conduct user research, gather feedback, and analyze user behavior to inform design decisions and improve the overall user experience.
- Develop wireframes, prototypes, and interactive mockups to effectively communicate design concepts and interactions.
- Create and maintain design guidelines, style guides, and UI pattern libraries to ensure consistency and scalability across different products and platforms.

Selected Design Projects

- Healthbee - Digital Healthcare Platform
- Leometric - Portal (Mobile Application)
- VYGR - A Modern News App
- Leometric - IT Solutions (Website Design)
